Boccia Tatra Cup 2016 - the system of division into the groups and rules of progress into the finals

1. A draw in into the groups:

- a. The categories were lined up in descending order according to the Boccia World Rankings published June 18, 2016 by www.bisfed.com – for the international part and according to the Slovak national ranking published June 22, 2016 by www.boccia.sk – for the national part.
- b. Unranked players were lined up in descending order as they were drawn, in order in which they signed up for the tournament, respectively.
- c. The players were distributed into the groups applying 'snake' rule. Example: there are three groups A, B, C and from a list of players lined up in descending order in accordance with their previous performance these were selected into the groups, e.g. 1st player into the Group A, 2nd player into the Group B, 3rd player into the Group C, 4th player into the Group C, 5th player into the Group B, 6th player into the Group A and so on.
- d. If assigning player is from a country that has already been drawn into the group, he is skipped and his place is taken by the next player in turn. The skipped player is then given into the closest next group with no players from his country. This rule secures the lowest number of players from one country being drawn in the same group.
- e. Similarly, if a player from the same country at the end of the draw are found in the same group and there is still a group without players from a given country, this player is replaced by a player from another country who is in the group next in order.

2. Rules of progress:

- a. Players in each of the four categories are divided into groups with the number of players being 3 or 4. In the group, everyone plays against everyone.
- b. The results within the group determine the position of successful players. The success is the result of these factors:
 - i. K1: the number of wins
 - ii. K2: the number of positive points - the number of negative points
 - iii. K3: the number of positive points
 - iv. The draw
- c. Weight of coefficients is descending.
- d. In case of different number of players in the groups in that same category, after the finishing the group stage, the number of players will be set equal in every group in a way that matches with the last players in the group with a higher number of players will not be taken into account in determining the order in the group. Specifically, in groups of four players, the results of the last player will be invalidated, which results in the formation of the 3-member group.
- e. The progress of the best players from the group stage into the quarter finals and semi-finals is as follows:
 - i. BC1: 4 players – the best players in the group and the best player from the second position in the group.
 - ii. BC2: 4 players - the first in the groups.
 - iii. BC3: 4 players – the best players in the group and the best player from the second position in the group.
 - iv. BC4: 8 players - the best players in the group and the best player from the second position in the group.
- f. The finals of the tournament follow the spider system.

3. Contumaciousness of the game:

- a. In the case of player's absence in the particular game the result of the game will be set by default as a win X : 0 for the present player where X means the highest score being played in the group.
- b. In case the highest score in the group is lower than 6, the result of the game will be set by default as a win 6 : 0.

Boccia Tatra Cup 2016 - medzinárodná časť

Systém prerozdelenia do skupín a postupové pravidlá

1. Losovanie do skupín:

- a. Hráči v danej kategórii boli zoradení zostupne podľa Svetového rebríčka boccie zverejneného k dňu 18.6.2016 na www.bisfed.com.
- b. Hráči, ktorí sa v rebríčku nenachádzajú boli zoradení zostupne losovaním, resp. bolo ponechané poradie, v ktorom sa prihlasovali na turnaj.
- c. Do skupín sa hráči rozdeľovali pravidlom „hada“. Príklad: sú 3 skupiny A, B, C. Zo zoznamu hráčov usporiadaných zostupne podľa výkonnosti sa do skupín vyberajú nasledovne: 1. do skupiny A, 2. do skupiny B, 3. do skupiny C, 4. do skupiny C, 5. do skupiny B, 6. do skupiny A, atď.
- d. V prípade, že zaradovaný hráč je z krajiny, ktorá je už v skupine zastúpená, tento sa v poradí preskočí a na jeho miesto sa umiestni najbližší hráč v poradí. Preskočený hráč sa zaradí do najbližšej možnej skupiny, v ktorej ešte nie sú zaradení hráči z jeho krajiny. Toto pravidlo sleduje, aby sa v jednej skupine stretlo čo najmenej hráčov z rovnakej krajiny.
- e. Podobne ak sa hráči z rovnakej krajiny na konci prerozdelenia vyskytnú v jednej skupine a existuje ešte skupina bez hráča z danej krajiny, tento hráč sa vymení za hráča z inej krajiny ktorý je v danej skupine najbližšie v poradí.

2. Postupové pravidlá:

- a. Hráči v každej zo 4 kategórií sú rozdelení do skupín s počtom hráčov 3 alebo 4. V rámci skupiny hrá každý s každým.
- b. Výsledky v skupine určujú poradie úspešnosti hráčov. O úspešnosti rozhodujú tieto koeficienty:
 - i. K1: počet výhier
 - ii. K2: počet pozitívnych bodov v skóre – počet negatívnych bodov v skóre
 - iii. K3: počet pozitívnych bodov v skóre
 - iv. Lós
- c. Váha koeficientov je zostupná.
- d. Ak sú v danej kategórii skupiny s rôznym počtom hráčov, po ukončení skupinovej fázy sa počet hráčov v nich zjednotí a to tak, že zápasy s poslednými hráčmi v skupinách s vyšším počtom hráčov sa nebudú brať do úvahy pri určovaní poradia v skupine. Konkrétne v skupinách so 4 hráčmi sa výsledky posledného anulujú, čím vznikne 3-členná skupina.
- e. Zo skupín postupujú najlepší hráči do ¼-finálových a ½-finálových zápasov nasledovne:
 - i. BC1: 4 hráči – prví zo skupín a z 2. miesta 1 hráč s najlepšimi výsledkami
 - ii. BC2: 4 hráči – prví zo skupín
 - iii. BC3: 4 hráči – prví zo skupín a z 2. miesta hráč s najlepšimi výsledkami
 - iv. BC4: 8 hráči – prví zo skupín a z 2. miesta 1 hráč s najlepšimi výsledkami
- f. Finálová časť turnaja sa hrá systémom pavúka

3. Kontumácia zápasov

- a. V prípade neúčasti hráča na danom zápase je výsledok zápasu kontumovaný najvyšším rozdielom skóre v danej skupine; napr. v prípade najvyššieho rozdielu skóre 11:4 bude zápas kontumovaný na 7:0
- b. V prípade že najvyšší rozdiel skóre v danej skupine je menší ako 6, bude zápas kontumovaný na 6:0 v prospech prítomného hráča.
